1/ A temporary establishment consisting of one Assistant Surgeon 115 vaccinators has been sanctioned for a period of one year from 1.11.43 for carrying on an intensive vaccination Campaign in the State. The Campaign to be carried on from the year 1943-44. So far 25 Municipalities have been completed and the results only a total of 103 Smallpox cases

2/ The Director of P.H. states that some Mills refuse to employ the vaccinators on some pretext or other, that accordingly much progress has not been achieved & that emphatic Orders must be issued to the Mills to entertain the vaccinators wherever posted by the Dept of Health or Local Health Officers & that Mill Agents till the Campaign is completed in their areas. It is seen from the information furnished that about 18 Mills have refused to employ the vaccinators

3/ The point for consideration is whether it is necessary to issue general direction to all the Mills in the State as requested by the Dir of P.H. and if it could be done so, without consulting the Mills concerned & without regard to their financial Condition

4/ Under Section 55 (ms) & 23 (x) of the Factories Act, 1934 as amended by the Madras Act XXIV of 1937 respectively, it is the duty of the Mills to make provision for public vaccination in their areas & to make

Serial No

reasonable provision therefor out of the W[illegible] funds. From the point of view of public health also, the Wards concerned should undertake this duty. It is the opinion of experts in Health matters that the Small Pox epidemic would gradually reach its peak once in seven years. As such it is a matter for consideration if the vaccinating should be postponed long before that period. It would no doubt be difficult to carry out mass vaccination over the whole State - should the disease break out in an epidemic form - simultaneously the intensive vaccination organised as afresh such a contingency. But as all the Wards cannot be taken up in a year & as the Wards have to pay for it, it is necessary to fix up a programme of work in particular Wards who could be apprised of it well in time before the Budgets are framed for that year. Provision is made thereon. In this view it does not appear necessary to issue general instructions to all the Wards. Wards alone may however be requested to send up a list of Wards in which the intensive vaccination campaign is necessary to be started during the current year so that they might be informed

Sir,

With reference to your letter No L.~~8028~~ 1838/M.L.99-42-2, dated 10th August 1942, requesting to furnish information regarding the places where intensive vaccination work has been completed, the names of Municipalities which have refused to abide by the advice of the Department, and enquiring whether the Deputy Commissioners of the Districts have been informed, I have the honour to state that a circular letter was sent out to the Presidents of all the Municipalities and a copy of the same to the Deputy Commissioners of all the Districts. In this connection the Deputy Commissioner, Kadur in his letter No. A3 5882-361/41-42, dated 13-6-1942 wanted to know if any programme has been drawn up and whether all Municipalities in the State will be taken up this year In reply he was intimated that the intention of the Government in undertaking this mass vaccinations in all Municipalities was to prevent an out break of small-pox and that all the Municipalities will be taken up by turns, preference being given to infected towns

2. The Deputy Commissioner, Hassan, in his letter No M L. C 4700/41-42, dated 26-5-1942, stated that the Presidents Alur and Belur Municipalties have reported that the posting of vaccinators to these Municipalities has not been necessitated and that they had resolved further that no funds have been provided in the budget for 42-43 and the Municipalities, therefore, object to meet the expenditure on account of slender resources and enquired whether the Municipalities in the ~~State~~ Districts were consulted at any time in this matter The

14

The Deputy Commissioner was informed in this office letter No. B.E.353, dated 1-6-1942, that vaccinators are being posted to all Municipalities by turn as contemplated in G O No L.4996-5505/M.L 98-41-2, dated 12-12-1941 and was requested to issue necessary instructions to the Presidents of all Municipal Councils, in the District. (Copies of the letters are enclosed for information of Government)

3. The intensive vaccination campaign has been completed in the following Municipalities -

1	Chennarayapatna	Hassan District
